3 November 2008

Ms Faye Yarroll  
Cochlear Community

Dear Faye

On behalf of the Rotary Club of St Ives I wish to thank you for your excellent presentation at our October 29 club meeting.

Your experience as a recipient of two cochlear implants and the profound effect it has had on your life was very interesting and informative. Our members and guests really appreciated your personal story and were amazed by the outstanding work of Professor Bill Gibson and the many others who have helped to make this technology available.

Thanks again for speaking at our club and congratulations for the great work that you do to increase community awareness and understanding about cochlear implants.

For interest I have enclosed a copy of our Rotary newsletter from last week that includes an article on your presentation.

Yours faithfully

Greg Rappo  
President 2008 - 09
